

Oak Compact Joystick

TOPPER SIZING GUIDE

The Oak Compact Joystick has a range of available toppers that can be screwed into place with 3D prints. Each topper comes in a small, medium and large size, and can be modified further if necessary.

The following table shows images of each topper and the respective measurement ranges that best fit each size.

Topper	Dimensions [mm]								
	Small			Medium			Large		
	Diameter	Width	Depth	Diameter	Width	Depth	Diameter	Width	Depth
Ball	N/A	50	N/A	N/A	75	N/A	N/A	100	N/A
Concave	N/A	50	N/A	N/A	75	N/A	N/A	100	N/A
Convex	N/A	50	N/A	N/A	75	N/A	N/A	100	N/A
Goalpost	N/A	50	65	N/A	75	75	N/A	100	90
Stick	25	50	N/A	30	75	N/A	35	90	N/A

These measurements take into account the length and breadth of the hand. The measurement taken for length is from the base of the palm to the fingertips, and for the breadth is the width of the palm across the four fingers. The following table is an approximation tool to help guide which size is likely to best suite different hand sizes.

	Small	Medium	Large
Hand Length [mm]	130	150	180
Hand Width [mm]	50	75	100
